Sunday schools of the county, which will count on the allotment. Las Sunday the Main Street Christian and the First United Presbyteria buted \$650 and previous to that time, other schools in the county have given various sums.

The Sunday school children of the United States were called on to make a Christmas offering for the starving Syrian and Armenian or phans, but the appeal was deferred in most Sunday schools because of other activities at Christmas time.

In view of the fact that next Sunday is Christmas for the little folks of Armenia and Syria, since they use the Gregorian calendar, it was the Sunday schools of the county which have not already contributed. Contributions may be sent direct to Cleveland H. Dodge, 1 Madison Avenue, New York, or may be turned over to the local committee to be forwarded with the local fund. it is urgently requested that a report be madeto the local committee so that cerdit may be taken on the county allotment. Sunday school officers who have already sent offerings to Mr. Dodge are also asked to same reason.

BY DOCTOR CORNELL

Backache is perhaps the most common ilment from which women suffer. Rarely do you find anybody free from it. Some times the cause is obscure, but Dr. Pierce, of Buffalo, N. Y., a high medical authority, says the cause is very often a form of catarrh that settles in the delicate membranes of the feminine organs. When these organs are inflamed, the first symptom is backache, accompanied by bearingdown sensations, weakness, unhealthy distation, headache and a general run-down condition. Any woman in this condition is to be pitied, but pity does not cure. The trouble calls for Dr. Pierce's Favorit Prescription, which is a separate and distinct medicine for women. It is made of roots and herbs put up without alcohol or opiate of any kind, for Dr. Pierce uses nothing else in his prescription. Favorite is made seem to have been intended by Nature for that very purpose. Thousands grateful letters to Dr. Pierce saying i scription, it is reassuring to know that it goes straight to the cause of the trouble There is but one way to overcome sickness. and that is to overcome the cause. That is precisely what Favorite Prescription is intended to do. Send 10c for trial pkg. of Tablets.

For a Quicker Start

When you start your car, don't try to do it all with the starter button, for that only wastes current. Prime your cylinders and then:

1. Set your controls right, with retarded spark and throttle slightly open.

2. Use your choker to get a richer mix-

ture and quicker explosion. 3. Throw out the clutch and take

some of the load off the engine. 4. Then—and not till then—step on the button, and away she'll go.

There are lots of other little wrinkles that prolong your battery's life and make car operation easier. Drop in and let us post you on them.

GOV. GOODRICH TO LEND HIS SUPPORT

Effort Being Made to Authorize City Schools To Supervise School Gardens During Vacation

Something Suggestive of Value of Home Gardening Offered by Report From Boston, Mass.

Indianapolis, Ind., Jan. 17.—Governor James P. Goodrich, Dr. Harry E. Barnard, federal food administrator for Indiana, and other identified with the kitchen and school garden work in Indiana during the seasons of 1917 and 1918 are lending their support to an effort that is being made to prepare and have enacted a law that will authorize city school boards to pay for the supervision of school children's gardens and agricultural enterprises, during vacation periods,

Under the existing order, school corporations are said to be without authority in law to make an appropriation for paying the cost of garden supervision, except during the continuation of the school sessions. It is during the vacation period, in practically all cases in the state, Two Hundred and Twenty were Rewhen this supervision is most needed, it is argued.

E. F. A Thousand Yous

When you pick up your morning or afternoon newspaper and glance over the advertising you quite unconsciously multiply yourself a thousand times.

In half or three-quarters of an hour you can, metaphorically speaking, visit every progressive store in town. You virtually poke your head into every department of every department store. You run into the florist's, the confectioner's, the oculist's, the leading groceries, banks, theatres, all the various places that supply the things that make this twentieth century and life worth the living. Here is a greater choice in clothing, food, furniture, books, pictures, musical instruments, travel, entertainment, opportunities for investment, the service of public utility corporations than any monarch of old could command.

It would easily take a thousand yous, traveling hard all day to find out for yourself what the advertisements tell you in a few minutes morning or evening.

They deserve your attention. They deserve your confidence Without them, without the progressive spirit of the merchants and manufacturers who back them, the abundance of things you now enjoy would be a memory-or something still to be realized. Without advertising the prices you would have to pay for many of the necessities you now buy for a few pennies would make a dollar look like a snow ball on the kitchen range.

Read the advertisements. Read them for your own information and advantage. Read them to encourage the advertisers who are making these better things possible for you.

Journey to Paris is being Made Closer Every Day, Londoners use to Think Paris Far Away.

LAWTON MADE TRIP IN 35 MIN

London, Dec. 17.— (By Mail.)— Thanks to aviation the world grows smaller every day,

A similar idea occurred to Fred H. Lawton, of the American Y. M. C. A. While London was rejoicing over the signing of the armistice the American conceived the idea of showing the Yanks and compatriots in Paris just what form these rejoicings took. So a movie of the London crowds was taken. With this Lawton left England at 1:30 P. M. and arrived in Paris in time for luncheon. The flight was made in a

COMMERCE CHAMBER PREDICTS PROSPERIT

Volume of Foreign Trade Will Play Large Share in This Increased Prosperity

GRADUAL DECLINE DESIRED

Washington, Jan. 17.—The Chamber of Commerce of the United States sees a "better era and a greater prosperity than has ever been our portion in the past," after "period of indeterminate length," during which necessary industrial and commercial readjustments will be made. "Volumne of foreign trade will play a large share in this increased prosperity," says the chamber's committee on statistics and standards in a formal report made public. As to the necessity for readjustment, it says:

"The general desire is not for radical reductions of prices, but rather for such gradual declines as conditions may warrant. Commingled with this is the knowledge that wages and salaries have much to do with the cost of commodities today, and nothing is further from the general thought than that there should be substantial reductions in the income and the purchasing power of the many, but rather that a realignment of this nature should assume the form of readjustment in the line of such wages and salaries as are not warranted under the changed conditions.

"The business situation is most remarkable, even when its uncertainty is taken into account, for its absence of depression, gloom and of pessimism."

FUTURE SPORTS LOOKS VERY ROSY

Reopening of Business will aid in Putting Games of all Sorts of Firmer Footing.

SOLDIERS RESPECT BOXING

Since they Entered War Army Boxing Contests and Ather Sports Have Become Commonplace.

> By H. C. HAMILTON (U. P. Staff Correspondent.)

New York, Jan. 17.—The past of sports lies in the ash heap of the fires of 1917 and 1918. The future stretches over a rosy era, born in the fires which left their marks in deep fissures.

The years of trouble and inaction were short, but their influence will be felt to a great extent when sports again gets the sendoff.

Inaction will not be felt long. Returning soldiers and reopening of business along the lines of peace will give their aid in putting games of all sorts on a firmer footing even than they held before war came.

Out of the army camps has come a respect for boxing that never existed before. The average soldier who never saw a boxing match before he began to shoulder a rifle for Uncle Sam now realizes that in this sport is typified the very best of American manhood. He realizes that, conducted along decent, clean lines, there is no sport that has a greater fascination for the American public. For this reason it may be expected that the year 1919 will be one of the greatest boxing ever saw. Championship bouts are in the offing. That they will be held, attended by tremendous audiences, seems a foregone conclusion.

The reason for this is that many thousands of soldiers cared nothing for sports because they never had been given the opportunity of witnessing high class contests in any ine. Since they became members of the army boxing contests, baseball, football, and track and field meets, have become commonplace. They learned to like them. Therefore, they will yearn for the same thing when they again don civilian dress and take up civilian habits.

There have been no extraordinary boxers developed in the army. There are a few boxers, of course, who learned what they know since they have had the advantage of instructors in the army, but the constant moving from place to place and the rigid enforcement of army discipline, which requires a certain amount of work and drill from each soldier. has prohibited close application to the technique of the game. But there will be graduates to the class of professionals from the ranks of the fighters when they are mustered out, and these will help boxing.

WORK OF RED CROSS DEFINED BY FIESER

Obligation of Red Cross to Families of Men in Service Does Not Cease Upon Discharge.

DISABLED SOLDIERS HELPED

Most Important is Teaching Man's Family an Intelligent Appreciation of His Needs

Red Cross Civilian Relief demobiization work has just been defined by the Lake Division, Director of Civilian Relief-James L. Fieser.

"The obligation of the Red Cross to the families of men in active or military forces does not cease upon honorable discharge from the service," Mr. Fieser says.

In addition, the Red Cross Home Service sections throughout Ohio, Indiana and Kentucky are strenghtening their organization to meet the needs of the returning men,-those in good physical condition as well as the disabled-during the period of re-adjustment to civil life.

Civilians, wounded as the direct result of war atcivities are also entitled to Red Cross Home Service, and the families living in this country of men serving with any of the

Only the families of deserters from the military and naval forces of the United States have no right to this service, though even in these cases considerate action will be taken to assure the families' continued

But the Red Cross knows that there will not be many deserters. It is the families—anxious to have their men at home, anxious to carry out the plans made before the warwho will need encouragement to keep them from worrying their men.

Difficulties concerning delayed alotment and allowance checks, problems of filing claims for compensation and insurance benefits, health and social problems growing out of men from service because of physical disability-these and many other necessities will keep the Home Service sections of the Red Cross in the Lake Division busy for an indefinite time to come.

For the disabled soldier, there is much that the Red Cross Home Service is already doing. Perhaps the most important is teaching the man's family an intelligent appreciation of his needs and difficulties. Often both the disabled man and his family must be persuaded and convinced of the wisdom of the re-training which the Federal Board for Vocational Education offers every man suffering a 10 per cent disability due to government service.

Names of all men discharged from camps and government hospitals in this country are reported to the Red | Cross, and the Home Service section nearest each man's home is notified. so that he will not lack help.

The district office of the Federal Board co-operates with the Red | Cross division office and these keep | up a constant exchange of lists of discharged men coming to the attention of each agency.

Even after a man has been trained and procured employment the Federal Board and the Red Cross still follow up his case to safeguard the man's interests until he is well on

In all cases, however-Red Cross | Home Service sections have been instructed to extend their service upon the principle that action shall be responsive rather than initiatory.

WEAKNESS REMAINS LONG AFTER Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic-one that will not only put strength and endurance into the body, but will also help to build up and strengthen the

run-down cells of the brain. One of the most highly recommended remedies to put energy into both body and brain is Bio-feren -your physician knows the form-

ula-it is printed below. There's iron in Bio-feren-the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging

appetite. There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-feren is splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time - seven a day, until health, strength and vigor are fully re-

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bioferen, it is printed on every package. Here it is: Lecithin: Calcium Giycero-phosphate; Iron Peptonate, Manganese Peptonate; Ext. Nux. Vomica; Powdered Gentian; Phenolphthalein; Olearsin Capsicum, Kolo.

Band And Two Orchestras, Will be Here--Program in Afternoon at Christian Church

Great interest is being taken by the citizens of Rush county in the plans for honoring the returning REVOLT REVIVED soldiers, sailors, and marines with a dinner, reception and dance, on Tuesday, January 21.

The committee which went to Indjanapolis today to arrange for music for the soldiers day telephoned back that the Indianapolis News newsboys band and two orchestras would he here. The news that the newsboys band is coming will be welcomed because this organization is well remembered for its past con-

The orchestra of the 139th Field Artillery and Farley's orchestra of colored musicians were also engaged for the day and evening. The army orchestra will play at the reception in the afternoon and for the dance in the evening, and the Farley orchestra will also play at the dance.

The newsboys band will give a concert during the dinner and also at intervals during the afternoon. The band will be here until eight o'clock in the evening.

The fact was emphasized today that the dinner, reception and dance is not alone for returned Rush county soldiers, but for all men, regardless of their former residence, who were mustered into the federal service with Company B.

Several of the committees apnointed to arrange the details of the home coming, met yesterday, and the reports show that no pains are being spared to make the welcome one that will show the appreciation the people of the county have for the service these returning soldiers renderd their country.

All soldiers, sailors and marines in the civil war. Spanish-American war and the late war will be honored guests of the county on Tuesday. and that the occasion may be given a special military aspect, the men who have just been discharged from the service are requested to wear their uniforms.

Fighting Resumed on Larger Scale After Murder of Karl Liebknecht and Rosa Luxemburg

THE KILLING IS CONFIRMED

Radical Leader Stabs Guard in Break for Liberty and is Shot Down by Soldiers

(By United Press.)

Zurich, Jan. 17.-The Spartacan revolution has been revived on a large scale in Berlin following the death of Karl Liebknecht and Rosa Luxemburg, it was reported in a dispatch received here today.

The government is expected to take violent measures in an effort to suppresse the new disorders. Five new divisions of government troops have arrived in Berlin. The city gives the impression of being occupied almost entirely by soldiery,

London, Jan. 17-Karl Liebknecht and Rosa Luxemburg have been killed, an official dispatch from Berlin announced today. The dispatch added that the persons who committed the murder will be severely punished. Several arrests have been made. Liebknecht stabbed a guard and make a break for liberty white being taken to jail and the soldiers shot him. The woman was pounded into insensibility by a mob and then drowned in the Landwher canal.

When it became known yesterday that Dr. Liebknecht and Rosa Luxemburg were at the Hotel Eden, in the western part of the city, a crowd rapidly congregated and stormed the hotel lobby to lay hands on them. Both were spirited to a side entrance to the hotel, but the mobforestalled the attempt of the troops to save Fraulein Luxemburg. She then thrown into an automobile by the crowd, which intended to take her to prison.

A few blocks down the street the machine was halted by a second mob and when the presence of Fraulein Luxemburg became known a man jumped on the running board of the car and shot her through the head. The body was dragged from the automobile and carried off. It is believed that it was thrown into the canal, but it has not been found.

In the meantime. Dr. Liebknecht was hurried into another automobile by officers and troops and the ear was headed for the Moabit prison. Several of the lodges, clubs and While going through the Tiergarten who intended to hail another automade an attempt to escape and was

The campaign will be unusual in treasury. Several hundred dollars have already been contributed by Sunday schools of the county, which will count on the allotment. Last Sunday the Main Street Christian and the First United Presbyterian Sunday schools of this city contributed \$650 and previous to that time, other schools in the county have given various sums.

The Sunday school children of the United States were called on to make a Christmas offering for the starving Syrian and Armenian orphans, but the appeal was deferred in most Sunday schools because of other activities at Christmas time.

In view of the fact that next Sunday is Christmas for the little folks of Armenia and Syria, since they use the Gregorian calendar, it was suggested as very appropriate for the Sunday schools of the county which have not already contributed. to give their part on that occasion.

Contributions may be sent direct to Cleveland II, Dodge, 1 Madison Avenue, New York, or may be turn ed over to the local committee to be forwarded with the local fund Wherever offerings are sent direct. it is urgently requested that a report be madeto the local committee so that cerdit may be taken on the county allotment. Sunday school officers who have already sent offerings to Mr. Dodge are also asked to inform the local committee for the same reason.

The Main Street Christian Sunday school last Sunday contributed approximately \$500 and adopted seven orphans of the stricken land where the people have been persecutd by the Turks for years. The Century Bible class stood sponsor for three orphans, the Young Men's Circle for one, the Always Present class for one. the Loval Women's class for one and the Dr. Gilbert class for one. Prison, Judge Warns it is His Last Chance.

HAS BEEN IN COURT BEFORE

Walter Ryse, age thirty-seven, of this city, was given a sound lecture when arraigned before Judge Sparks in the circuit court yesterday, and warned that the court would not be lenient with him next time, although a fine of \$100 and sentence of one to five years in the state prison were suspended pending his good bhavior.

The fine and sentence were imposed on a charge of issuing fraudulent checks, filed several months ago. At that time Ryse was given a chance to make good and no sentence was imposed. Ryse was brought up again because of complaints of stealing made against him. Judge Sparks told Ryse that he did not want to take him away from his family and send him to prison at this time, but that this was absolutely his last chance.

Dr. W. T. Lampton of Milroy was arraigned today on an affdavit charging assault and battery with gave bond for \$1,000 with Joseph H. Pike as surety. It was understood that the grand jury today was investigating the charge against Dr.

Twenty-Five Countries Will be Represented-President Wilson is Optimistic

(By United Press.)

Paris, Jan. 17.—The question of representation for the people themselves through the newspaper corespondențs today took precedence ver all other problems before the peace conference. Importance of this matter was evident by the fact that the league of nations, the Russian situation and other vital subjects have been subordinated to arrived at a solution, in the manner in which the proceeding at the peace table are to be made public.

Twenty-five countries will be represented at the formal opening of the peace conference tomorrow. In addition to the twenty-one states which took part in the war. there will be Pern, Ecquador, Uruguay and Bolivia, which severed diplomatic relations with Germany.

On the eve of formal opening of the full peace congress. President Wilson is feeling more optimistic regarding general situations than at any time since his arrival in Europe. When preliminary conference were resumed today it was expected the delegates would take prompt action on the publicity demands formulated by the gathering of newspaper correspondents.

Secrecy Means Another War

Washington, Jan. 17 .- Secreey in the peace conference means another world war," Senator Lewis, Illinois, democratic whip today declared in

Lewis echoed criticism of the reported Shottling up" of the peace conference voiced by Senator Bornia, Idaho, who declared with Lewis, that continuation of secret diplomacy means that the dream of world peace will not come true.

As leading dispatches from Paris tell of the apparent decision to close : the peace conference to newspaper correspondent. Borah said he had been informed that the subject had been reopened with some prospect of modification of the severe order.

Armistice Extended a Month

Paris, Jan. 17.-The armistice th several important clauses added have been extended for a month it was officially announced today.

"Following the conference at Treves between Marshal Foch and the German delegates the armistice convention was prolonged for a month." the statement said.

The clauses concern agricultural material, Russian war, prisoners, na-

What Is The Cause of Backache?

BY DOCTOR CORNELL

Backache is perhaps the most common do you find anybody free from it. Some-times the cause is obscure, but Dr. Pierce these organs are inflamed, the first symptom is backache, accompanied by bearing charges, irregularity, painful periods, irri tation, headache and a general run-dowr condition. Any woman in this condition is to be pitied, but pity does not cure. The trouble calls for Dr. Pierce's Favorite Prescription, which is a separate and distinct medicine for women. It is made of roots and herbs nut up without alcohol or opiate of any kind, for Dr. Pierce uses nothing else in his prescription. Favorite Prescription is a natural remedy for wo men, for the vegetable growths of which it is made seem to have been intended by Nature for that very purpose. Thousands of girls and women, young and old, have grateful letters to Dr. Pierce saving it There is but one way to overcome sickness, and that is to overcome the cause. UNIFORM RANK INSPECTED

At the meeting of the Uniform Rank, Knights of Pythias last night a banquet was served at seventhirty. Following the banquet S. L. Trabue acted as toastmaster and several appropriate speeches were made by members of the order. Col-

onel Phelps of the Third regiment from Newcastle inspected the company. Colonel Phelps was accompanied here by eight members of the order from that place.

For a Quicker Start

When you start your car, don't try to do it all with the starter button, for that only wastes current. Prime your cylinders and then:

> 1. Set your controls right, with retarded spark and throttle slightly open.

> 2. Use your choker to get a richer mixture and quicker explosion.

> 3. Throw out the clutch and take some of the load off the engine.

> 4. Then-and not till then-step on the button, and away she'll go.

There are lots of other little wrinkles that prolong your battery's life and make car operation easier. Drop in and let us post you

WOUNDED MEN DESERVE HELP

Representative of Each Red Cross Section is to Help Discharged Men in Their Needs

Disabled soldiers and sailors discharged from service probably know more about the Government plans for their civil re-establishment than do the people of Rush county.

These plans include all necessary medical, surgical and convalescent treatment in Government hospitals. During this time the men are still in service technically and receive their regular pay and family allowances.

Wf a man, eligible for compensation, is unable to resume his peacetime occupation when he is well enough to be discharged, the Federal Board for Vocational Education will provide training in any suitable work that he may choose. Effert Being Made to Authorize City Schools To Supervise School Gardens During Vacation

WAS SUCCESS IN RICHMOND

Something Suggestive of Value of Home Gardening Offered by Report From Boston, Mass.

Indianapolis, Ind., Jan. 17.-Governor James P. Goodrich, Dr. Harry E. Barnard, federal food administrator for Indiana, and other identified with the kitchen and school garden work in Indiana during the seasons of 1917 and 1918 are lending their support to an effort that is being made to prepare and have enacted a law that will authorize city school boards to pay for the supervision of school children's garlens and agricultural enterprises, during vacation periods.

Under the existing order, school corporations are said to be without authority in law to make an appropriation for paving the cost of garden supervision, except during the IN CASUALTIES TODAY continuation of the school sessions. It is during the vacation period; in practically all cases in the state, Two Hundred and Twenty were Rewhen this supervision is most needed, it is argued.

E. F. Murphy, whose success in Richmond, Ind., attracted nationwide attention, last year, both because of the number of school gardens, and the educational and intrinsic value of the work, has joined the federal forces that are planning a further intensive gardening campaign for 1919. In this capacity he has enlisted the sympathetic interest and support of Dr. Horace Ellis, state superintendent of public instruction and L. N. Washington, Jan. 17 .- The Chami "period of indeterminate length," during which necessary industrial and commercial readjustments will will play a large share in this in-That night the Parisian armisti- creased prosperity," says the chamber's committee on statistics and standards in a formal report made public. As to the necessity for readjustment, it šays:

"The general desire is not for radical reductions of prices, but rather for such gradual declines as conditions may warrant. Commingled with this is the knowledge that wages and salaries have much to do with the cost of commodities today, and nothing is further from the general thought than that there should be substantial reductions in the income and the purchasing power of the many, but rather that a realignment of this nature should assume the form of readjustment in the line of such wages and salaries as are not warranted under the changed conditions.

"The business situation is most remarkable, even when its uncertainty is taken into account, for its-absence of depression, gloom and of pessimism."

SOLDIERS RESPECT BOXING

Since they Entered War Army Boxing Contests and Ather Sports Have Become Commonplace.

> By H. C. HAMILTON (U. P. Staff Gerrespondent.)

New York, Jan. 17.-The past of sports lies in the ash heap of the fires of 1917 and 1918. The future stretches over a rosy era, born in the fires which left their marks in deep fissures.

The years of trouble and inaction were short, but their influence will be felt to a great extent when sports again gets the sendoff.

Inaction will not be felt long. Returning soldiers and reopening of business along the lines of peace will give their aid in putting games of all sorts on a firmer footing even than they held before war came. Out of the army camps has come

a respect for boxing that never existed before. The average soldier who never saw a boxing match before he began to shoulder a rifle for Uncle Sam now realizes that in this sport is typified the very best of American manhood. He realizes that, conducted along decent, clean lines, there is no sport that has a greater fascination for the American public. For this reason it may be expected that the year 1919 will be one of the greatest boxing ever saw. Champiouship bouts are in the offing. That they will be held, attended by tremendous audiences, seems a foregone conclusion.

The reason for this is that many thousands of soldiers cared nothing for sports because they never had been given the opportunity of witnessing high class contests in any line. Since they became members of the army boxing contests, baseball, football, and track and field meets, have become commonplace. They learned to like them. Therefore, they will yearn for the same thing when they again don civilian dress and take up civilian habits.

There have been no extraordinary boxers developed in the army. There are a few boxers, of course, who learned what they know since they have had the advantage of instructors in the army, but the constant moving from place to place and the rigid enforcement of army discipline, which requires a certain amount of work and drill from each soldier, has prohibited close application to the technique of the game. But there will be graduates to the class of professionals from the ranks of the fighters when they are mustered out, and these will help boxing.

DEFINED BY FIESER

Obligation of Red Cross to Families of Men in Service Does Not Cease Upon Discharge.

DISABLED SOLDIERS HELPED

Most Important is Teaching Man's Family an Intelligent Appreciation of His Needs

Red Cross Civilian Relief demobilization work has just been defined by the Lake Division. Director of Civilian Relief-James L. Fieser.

"The obligation of the Red Cross to the families of men in active or military forces does not cease upon honorable discharge from the service," Mr. Fieser says.

In addition, the Red Cross Home Service sections throughout Ohio, Indiana and Kentucky are strenghtening their organization to meet the needs of the returning men,-those in good physical condition as well as the disabled-during the period of re-adjustment to civil life.

Civilians, wounded as the direct result of war atcivities are also entitled to Red Cross Home Service. and the families living in this country of men serving with any of the allied forces.

Only the families of deserters from the military and naval forces of the United States have no right to this service, though even in these cases considerate action will be taken to assure the families' continued

But the Red Cross knows that there will not be many deserters. It s the families—anxious to have their men at home, anxious to carry out the plans made before the warwho will need encouragement to keep them from worrying their men.

Difficulties concerning delayed alotment and allowance checks, problems of filing claims for compensation and insurance benefits, health and social problems growing out of the discharge of large numbers of men from service because of physieal disability-these and many other necessities will keep the Home Service sections of the Red Cross in the Lake Division busy for an indefinite time to come.

For the disabled soldier, there is much that the Red Cross Home Service is already doing. Perhaps the most important is teaching the man's family an intelligent appreciation of his needs and difficulties. Often both the disabled man and his family must be persuaded and convinced of the wisdom of the re-training which the Federal Board for Vocational Education offers every man suffering a 10 per cent disability due to government service.

Names of all men discharged from this country are reported to the Red Cross, and the Home Service section nearest each man's home is notified, so that he will not lack help.

Board co-operates with the Red Cross division office and these keep up a constant exchange of lists of discharged men coming to the attention of each agency.

Even after a man has been trained and procured employment the Federal Board and the Red Cross still follow up his case to safeguard the man's interests until he is well on his feet.

In all cases, however-Red Cross Home Service sections have been instructed to extend their service upon the principle that action shall be responsive rather than initiatory.

PORTUGAL TRUE TO OLD ALLIANCE

British and Portuguese Troops acted Together in an Informal Entente in 1148.

PORTUGAL'S PART IN WAR

Portugal Seized all German ships in Harbors and began Sending Troops to/West Font.

(By United Press.)

London, Dec. 16. (By Mail.)-The ldest existing alliance in the world was demonstrated during the war on the Western front.

While the original formal protecive alliance between the two counries was not signed until the first part of the 14th century, British and Portugueše troops acted together in an informal entente as early as 1148 in the explusion of the Moors from Portugal.

A British fleet, carrying crusaders to Palestine, happened to put in at a Portuguese port while the king of Portugal was trying to dislodge the Moors from Lisbon. He asked the British if they didn't want to cooperate in the common cause against Islam. The entente was success-

Portugal had a rather unique part to play in the European war. Lpc

When the war began in August, 1914, Portugal, true to her treaty, inquired of England what military ssistance was needed. England replied none in France, but requested Portugal to send troops to Afri-

So during the 1st period of the war Portugal, by an odd turn of international law occupied the dual position of an official neutral in Europe and an official belligerent in Africa. German-ships were putting in freely the ports of Portugal, while in Africa Portuguese and German troops were shooting each other.

In 1915 England asked her ancient ally for a broader activity. Portugal immediately seized all German vessels in her harbors and began sending troops to the Western front. This brought a declaration of war from Germany.

By placing her forces under British command, Portugal was the first European nation voluntarily to hand over command of her army to another nation, and she thereby became the first practical exponent of the great conception of allied unty of command.

Portugal kept several divisions on the West front, a small navy in the Mediterranean, scattered detachments in Africa, and seamen fighting on scores of American and British armed merchant ships.

"Late dot Red Cross because it has broken the brave spirit of the German peoples," said a German prisoner, and added that the Red Cross had taught the German civilian population America's strength.

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets,

the substitute for calomel.

Dr. Edwards, a practicing physician for 19 years and calomel's old-time enemy, 19 iscovered the formula for Olive Tablets while treating patients for chronic con-

stipation and torpid livers.
Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable lexative.

vegetable leastive.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them, 10c and 25c per box.

WEAKNESS REMAINS LONG AFTER

Reports Show That Strength, Energy and Ambition Re-turn Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endur-ance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both hody and brain is Bio-feren —your physician knows the formula—it is printed below.

There's iron in Blo-feren—the

kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging

appetite.
There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

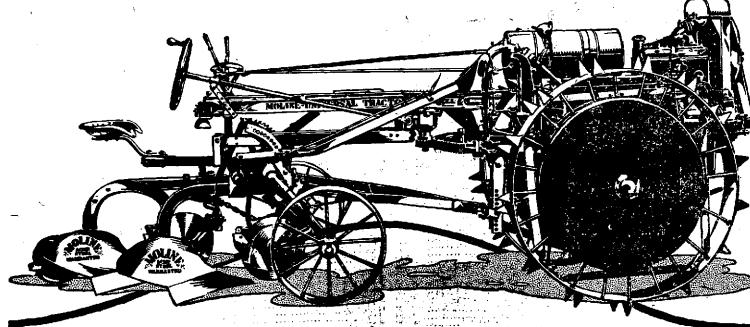

Taken altogether Bio-feren is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.
Bio-feren is sold by all reliable

druggists and is inexpensive. For weakness after influence patients are advised to take two tablets after each meal and one, at bed time seven a day, until health, strength and vigor are fully re-

It will not fall to help you and if for any reason you are dissails-fied with results your drugglat is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bioferen, it is printed on every package. Here it is: Lecithin: Calcium Glycero-phosphate; Iron Pepteaste, Manganeze Peptonate; Est. Nux. Vomica: Powdered Gentlan; Phonolphthalein; Olearsin Capelcum. Kolo.
